20TP001 – Acknowledge the Southern Meade County East-West Connector Corridor Study – Draft Report. Brennan introduced Stacia Slowey from HDR, Inc. who provided a presentation on the draft report. The draft report provides information on the

8-mile gap between Elk Creek Road and Interstate 90. HDR Engineering Inc. was selected to collect data, develop and analyze corridor alternatives and provide recommendations for a potential east-west corridor study, named the Southern Meade County East-West Connector Corridor Study. Twelve alternatives were identified as possible locations, then narrowed down to three build alternatives for further analysis. From there, Alternative 5 surfaced as the recommended alignment. This alternative identifies a corridor that can accommodate anticipated growth and provide an additional east/west road alignment approximately equidistant between Interstate 90 and Elk Creek Road. Discussion ensued.

20TP002 – Approve the 2019 Annual Listing of Obligated Projects. Brennan reviewed the 2019 Annual Listing of Obligated Projects. Brennan reviewed the TIP Amendment #20-002A which identifies a change to State Highway System Urban Projects, a Pavement Preservation Project, and a Roadway Safety Improvement Project. These changes are to account for cost differences between the STIP estimate and the engineer's estimate as well as the low quantity of PCC repair needed.
