

Rapid City Area Transportation Improvement Program

(Fiscal Years 2019-2022)

**Final
August 2018**

Prepared By:

The Cities of Rapid City, Box Elder, Summerset and Piedmont,
Meade County and Pennington County,
Rapid City Regional Airport,
Ellsworth Air Force Base
Rapid City Area School District,
the Rapid City Long Range Planning Division, and the
South Dakota Department of Transportation

In Cooperation With:

Rapid City Public Works Department
Pennington County Highway Department
Meade County Highway Department
City of Box Elder
South Dakota Department of Transportation
Federal Highway Administration and the
Federal Transit Administration
of the United States Department of Transportation

Adopted by:

The Executive Policy Committee
of the Rapid City Area Metropolitan Planning Organization

The Rapid City Area Metropolitan Planning Organization (MPO) provides services without regard to race, color gender, religion, national origin, age or disability, according to the provisions contained in SDCL 20-13, Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, as amended, the Americans With Disabilities Act of 1990 and Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 1994.

Any person who has questions concerning this policy or who believes they have been discriminated against should contact the Rapid City Area MPO at 605-394-4120.

"The preparation of this report has been financed in part through grant[s] from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under State Planning and Research Program, Section 505 [or Metropolitan Planning Program, Section 104(f)] of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation."

September 18, 2018

Darin Bergquist, Secretary
South Dakota Department of Transportation
700 E Broadway Ave
Pierre, SD 57501-3339

Subject: Approval of the SDDOT's 2019– 2022 STIP

Dear Secretary Bergquist:

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) have jointly reviewed the South Dakota Department of Transportation (SDDOT) 2019 – 2022 Statewide Transportation Improvement Program (STIP) and each Transportation Improvement Program (TIP) for the Sioux Falls, Rapid City, and Sioux City metropolitan planning areas. In accordance with 23 CFR 450.218, FHWA and FTA hereby find that the projects in the 2019 – 2022 STIP are based on a transportation planning process that substantially meets the requirements of 23 CFR Part 450 Subpart A, B, and C; 49 U.S.C. Sections 5303-5305; and 23 U.S.C. Sections 134 and 135. This finding is based on the certifications of the statewide and metropolitan transportation planning processes for, and within, the State of South Dakota and the FHWA's and FTA's participation in those transportation planning processes. Therefore, we hereby jointly approve the South Dakota's 2019 - 2022 STIP.

We find that the TIPs in South Dakota urbanized areas were developed based on continuing, comprehensive transportation planning processes carried out cooperatively by SDDOT and local communities pursuant to the applicable regulations and laws. SDDOT has concurred in the self-certification of each metropolitan planning organization (MPO). Based on our involvement and knowledge of the various planning processes, we likewise concur that these planning processes are being conducted in conformance with applicable federal requirements. In addition, we accept the TIPs and accompanying self-certification by the Rapid City and Sioux Falls MPOs. Action on the Sioux City MPO TIP will be taken by the FHWA Iowa Division and FTA Region 7.

Included in your STIP submittal was the SDDOT “Statewide Transportation Planning Process Certification.” With our ongoing knowledge and involvement in statewide planning in South Dakota, we concur that the SDDOT is in substantial compliance with the applicable planning statutes, regulations, and procedures.

When approving the STIP, the FHWA and FTA are required to make a planning finding documenting SDDOT's and the MPO's compliance with the planning requirements. Enclosed is a document titled *Federal Planning Finding South Dakota 2019*. Included are required corrective actions, recommendations for improvement, and commendations. Based on the federal involvement in the statewide and metropolitan planning processes, and review of required documents, FHWA and FTA have determined the statewide and metropolitan planning process substantially meets the

requirements of statute and regulation. Below is a summary of the issues identified with the 2018 Planning Finding.

Corrective Actions:

None

Recommendations:

None

Commendations:

The South Dakota Department of Transportation has an excellent STIP public involvement process. SDDOT's STIP Tribal consultation process has consistently been recognized as a best practice. SDDOT has developed an excellent working relationship with the MPOs and planning and programming of projects is done in a cooperative manner.

We appreciate the efforts and cooperation of your staff in developing the STIP. If you have questions or need additional information, please contact Mark Hoines (FHWA) at 605.776.1010 or FTA's Ranae Tunison (FTA) at 303.362.2397.

Sincerely,

R. Kirk Fredrichs
Division Administrator
FHWA SD Division

Sincerely,

Cindy Terwilliger
Regional Administrator
FTA Region 8

Enclosure: *Federal Planning Finding South Dakota 2018*

Federal Planning Finding
South Dakota 2019

Summary

The purpose of the Federal Planning Finding is to enable the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) to make a joint determination that the statewide planning process meets or substantially meets the requirements of 23 USC 134 and 135 and 49 USC 5303 and 5304, and the related regulations. This joint planning finding is done in conjunction with the review and approval of the Statewide Transportation Improvement Program (STIP). In South Dakota, the STIP is adopted annually, and covers four years of Federal-aid projects, projects requiring Federal actions, regardless of funding source, and regionally significant projects, regardless of funding source.

The FHWA South Dakota Division and the FTA Region VIII office have been involved in the statewide and metropolitan planning activities throughout the last year. Below is a brief summary of the activities in each area. Following the summary of activities and observations, this report will list any commendations, recommendations for improvement or corrective actions concerning the planning process in South Dakota.

Based on the Federal involvement in the statewide and metropolitan planning processes, and review of required documents, the FHWA and the FTA have determined the statewide and metropolitan planning process substantially meets the requirements of statute and regulation. In accordance with 23 CFR 450.218, the FHWA and the FTA hereby find that the projects in the 2017-2020 STIP are based on a transportation planning process that substantially meets the requirements of 23 CFR Part 450 Subpart A, B, and C; 49 U.S.C. Sections 5303-5305; and 23 U.S.C. Sections 134 and 135. This finding is based on the certifications of the statewide and metropolitan transportation planning processes for, and within, the State of South Dakota and the FHWA's and FTA's participation in those transportation planning processes.

Statewide Planning Process

Long Range Transportation Plan

The South Dakota Department of Transportation (SDDOT) adopted the "South Dakota Statewide Long Range Transportation Plan" in September of 2010. SDDOT's long range transportation plan is a policy plan and addresses all the required elements at the time of adoption. The State plans on updating the transportation plan by December of 2019.

State Freight Plan

The “South Dakota Freight Plan” was approved on September 20, 2017. The South Dakota Department of Transportation plans to incorporate the freight plan into the Statewide Long Range Transportation Plan when it is updated.

STIP

The SDDOT adopts a new STIP each year based on the Federal fiscal year. SDDOT’s STIP includes four years of transportation improvements. SDDOT also, has a “developmental STIP” that includes years five through eight. The “developmental STIP” serves as a list of projects that are progressing through the project development process and will ultimately be moved into the approved STIP. This process enhances the delivery of projects as they will only be allowed to progress into the approved STIP when at a stage that delivery is likely within the four year timeframe of the approved STIP.

The financial information in the 2019-2022 STIP was reviewed and found to be reasonable. SDDOT and the MPOs have demonstrated funding is available to support the programmed projects while adequately maintaining the transportation system.

Work Program

SDDOT has submitted a Statewide Planning and Research (SPR) Work Program that is consistent with the requirements of 23 CFR 420. South Dakota’s SPR Work Program is based on the State Fiscal Year. The 2019 SPR work program was approved on June 22, 2018.

Meetings and Public Involvement

The South Dakota Department of Transportation has an excellent public involvement process for their STIP. They have also implemented a nationally recognized Tribal coordination process. The STIP coordination with local governments likewise is exemplary. The State adopted a comprehensive public involvement plan in March of 2010. The SDDOT is in the process of updating the public involvement plan.

Coordination with Metropolitan Planning Organizations (MPOs)

The SDDOT continues to maintain an excellent relationship with the MPOs in South Dakota. The State regularly attends MPO meetings and is very involved in all studies conducted by the MPOs. The MPO Transportation Improvement Programs (TIP) and STIP are developed in a cooperative process and MPO approved TIPs are included with the STIP submission.

Review Activities

The SDDOT has a number of on-going planning studies that are utilizing SPR funding. The FHWA Division is a member of the study advisory team on the studies and actively involved in review of the planning products produced.

Yearly a review of the HPMS data is conducted with an emphasis in a particular data element. This year a field verification of data reported was conducted on a number of samples in the Eastern portion of South Dakota. SDDOT HPMS data was found acceptable with no issues or recommendations identified.

Metropolitan Planning Process

Plans

The Sioux Falls and Rapid City MPOs adopted Long Range Transportation Plans in 2015. The Rapid City MPO adopted a Long Range Transportation Plan on September 17, 2015 and the Sioux Falls MPO adopted a Long Range Transportation Plan on November 19, 2015. The Sioux City MPO is handled by the FHWA Iowa Division and FTA Region 7 Offices.

The MPOs routinely conduct various corridor and other sub-studies using Metropolitan Planning funds. These studies provide the MPOs valuable information for development of the required Long Range Transportation Plan. The FHWA Division is involved in nearly all studies conducted by the MPO to ensure all Federal requirements are met.

TIPs

The State and MPOs have a coordinated process for developing the STIP and MPO TIPs. When submitting the STIP for approval SDDOT includes the MPO TIPs without modification. Also included are the MPO self-certifications and State approval of the MPO TIPs.

Unified Planning Work Programs

The South Dakota MPOs participate in the Consolidated Planning Grant with the FHWA South Dakota Division serving as the lead agency and approving MPO Unified Planning Work

Programs on behalf of FHWA and FTA. The Rapid City and Sioux Falls MPO 2018 Unified Planning Work Programs were approved by FHWA with an effective date of January 1, 2018.

Meetings and Public Involvement

The MPOs in South Dakota have MPO approved Public Involvement Plans. The Sioux Falls MPO Public Involvement Plan was adopted in November of 2007 and the Rapid City Public Involvement Plan was adopted in November of 2011. The MPOs are encouraged to update the Public Involvement Plans on a five-year cycle. The Sioux Falls and Rapid City MPOs will be updating their Public Involvement Plan this year.

The MPOs are effectively implementing the approved Public Involvement Plans and conduct effective public involvement. They are continually evaluating the process and results and are always looking for way to improve the process.

Review Activities

The FHWA South Dakota Division regularly attends MPO meetings and participates in nearly all studies conducted by the MPOs. This involvement provides an on-going opportunity to identify and correct issues as they arise.

Commendations and Recommendations

Definitions

Corrective Actions: These are activities that are required by statute or regulation and are not being done by the State, and may potentially prevent the STIP from being approved without correction or without an action in place to correct the current processes.

Recommendations: These are activities that would be good for the SDDOT to incorporate into their planning processes. These activities are not required; however, some of the items that are noted could become a Corrective Action in a future Federal Planning Finding if not appropriately addressed.

Commendations: These are items that the FHWA and FTA deem worthy of recognition for their innovation and improvement to the process.

Corrective Actions:

None

Recommendations:

None

Commendations:

The South Dakota Department of Transportation has an excellent STIP public involvement process. The SDDOT's STIP Tribal consultation process has consistently been recognized as a best practice. The State has developed an excellent working relationship with the MPOs and planning and programming of projects is done in a cooperative manner.

Conclusion

The FHWA and FTA have reviewed the statewide planning processes, the metropolitan planning processes, and public involvement processes. Based on Federal agency involvement in the planning processes and communications with planning partners, the Federal agencies find that the South Dakota Department of Transportation substantially meet the requirements of 23 USC 134 and 135, 49 USC 5303 and 5304, 23 CFR 450, and 49 CFR 613.

RAPID CITY AREA TRANSPORTATION IMPROVEMENTS PROGRAM

(Fiscal Years 2018 - 2021)

- ABBREVIATIONS USED IN THIS DOCUMENT -

AC	Asphalt Concrete
ADA	Americans with Disabilities Act of 1990. Mandates changes in building codes, transportation, and hiring practices to prevent discrimination against persons with disabilities. This act affects all existing and new public places, conveyances, and employers. The significance of ADA in transportation will be most obvious in transit operations, capital improvements, and hiring practices.
AIP	Airport Improvement Program
C & G	Curb and Gutter
CIP	Capital Improvement Plan
CY	Calendar Year
DOT	United States Department of Transportation
FAST Act	Fixing America's Surface Transportation Act
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
FY	Fiscal Year
IM	Relates to either the interstate maintenance project funding category or the state system structure funding category (Resurfacing, Restoration and Rehabilitation) provided by the DOT under the terms of the ISTEA of 1991.
MPO	Metropolitan Planning Organization
PCC	Portland Cement Concrete
PE	Preliminary Engineering
PL	Metropolitan Planning Funds. Highway Trust Funds which have been set aside for transportation planning activities in Urbanized Areas. Funding is on an 81.95% - 18.05% federal/local basis.
RCATPP	Rapid City Area Transportation Planning Process. The local cooperative transportation planning program.

ABBREVIATIONS USED IN THIS DOCUMENT (Cont.)

RCP&E	Rapid City, Pierre, and Eastern Railroad
RCRA	Rapid City Regional Airport
ROW	Right-Of-Way
SEC 5307	Federal Program for capital improvements, i.e. terminals, shelters, mechanical equipment other than buses, computers, office equipment, etc. These funds, formerly known as Section 9 funds, have been available since FY 1984 through the Urban Mass Transportation Act of 1964 as amended by the Federal Transit Act of 1991. They provide resources for planning, capital and operating assistance. The match on planning and capital is 80% federal and 20% local; while the operating subsidy is 50% federal and 50% local.
SEC 5310	These funds, formerly known as Section 16 funds, are available through the Urban Mass Transportation Act of 1964 as amended. This authorizes capital grants to non-profit organizations to assist in providing transportation for the elderly and the handicapped. FTA provides 80% of the costs for equipment, and the 20% match must come from other than federal funds.
SEC 5339	A formula program that provides funding for capital projects to replace, rehabilitate, and purchase buses and bus-related equipment, and to construct bus-related facilities. This program was established under Moving Ahead for Progress in the 21st Century (MAP-21), replacing the previous Section 5309 discretionary program established under the Safe, Accountable, Flexible, and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU).
SDDOT	South Dakota Department of Transportation
STIP	State Transportation Improvement Program
STP	Surface Transportation Program
TIP	Transportation Improvement Program

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION STATEMENT

In accordance with 23 CFR 450.336, the **South Dakota Department of Transportation** and the **Rapid City Area Metropolitan Planning Organization** for the **Rapid City, South Dakota urbanized area** hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- (1) [23 U.S.C. 134](#), [49 U.S.C. 5303](#), and this subpart;
- (2) Title VI of the Civil Rights Act of 1964, as amended ([42 U.S.C. 2000d-1](#)) and [49 CFR part 21](#);
- (3) [49 U.S.C. 5332](#), prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (4) Section 1101(b) of the FAST Act ([Pub. L. 114-357](#)) and [49 CFR part 26](#) regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- (5) [23 CFR part 230](#), regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (6) The provisions of the Americans with Disabilities Act of 1990 ([42 U.S.C. 12101 et seq.](#)) and [49 CFR parts 27, 37, and 38](#);
- (7) The Older Americans Act, as amended ([42 U.S.C. 6101](#)), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (8) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (9) Section 504 of the Rehabilitation Act of 1973 ([29 U.S.C. 794](#)) and [49 CFR part 27](#) regarding discrimination against individuals with disabilities.

**RAPID CITY AREA TRANSPORTATION IMPROVEMENT PROGRAM
(Fiscal Years 2019 - 2022)**

I. INTRODUCTION

A. The Transportation Improvement Program

A Transportation Improvement Program (TIP) is a staged, multi-year program of transportation improvements including highway and transit projects. The TIP is a four (4) year priority list, including a financial plan. The Metropolitan Planning Organization (MPO) and the State Department of Transportation (SDDOT) cooperate in project selection. All projects funded by the Fixing America's Surface Transportation Act (FAST Act) must be included in the TIP.

The TIP should contain at least the following basic elements:

1. Identification of the project;
2. Estimated total cost and amount of federal funds proposed to be obligated during the program period;
3. Proposed source of federal and non-federal matching funds;
4. Identification of the recipient and, state and local agencies responsible for carrying-out the project;
5. A priority list of projects and project segments; and,
6. A financial plan.

The TIP is a "living" document. It can be amended with the approval of the Executive Policy Committee. The TIP focuses on projects that will require four (4) or less years to implement. Within the first four (4) years of the TIP, projects may be delayed or accelerated according to present needs, without requiring an amendment. This flexibility provides coordination among local and state agencies, saves money and decreases disruptions to the transportation system. The TIP is evaluated at year-end, and an annual increment of improvements is added to maintain a full multi-year program.

The TIP does not constitute an appropriation of funds, nor does it replace the normal funding program. The TIP is intended to serve as a fiscal management tool to assist state and local agencies in matching needs with resources. All major projects eligible for placement in the TIP must be selected from an approved Long Range Transportation Plan.

In developing the program, the MPO shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private transportation providers, and other interested parties a reasonable opportunity to comment on the proposed program. Because public involvement is a very important component of the TIP process, the public is given several opportunities to comment. The TIP is brought before the Rapid City Planning Commission, the Rapid City Council, and the Metropolitan Planning Organization committees. Public notices are printed in the local newspaper for all of the above meetings, and special public meeting notices are printed specifically for review of the TIP before the Metropolitan Planning Organization committees. The public is given the opportunity to comment in person at the meetings or submit comments during a specified comment period. Responses are made in reply to any comment received, and significant comments are discussed between the Staff involved in the TIP process and ultimately the MPO committees for further discussion as identified in 23 CFR 450.316 (a)(2).

A public meeting for the STIP was held in Rapid City on July 12, 2018.

B. The Transportation Improvement Program In Perspective

FAST Act projects in urbanized areas must be included in a TIP that is based on a continuing, comprehensive planning process carried on cooperatively by the state and local communities. The rationale for requiring a TIP can be summarized in three (3) key points.

1. Transportation issues should be approached in a comprehensive fashion with participation from all affected parties;
2. A systematic, comprehensive approach to planning and initiating transportation improvements assists decision-makers in determining the location, timing and financing of needed improvements; and,
3. A cooperatively developed program of transportation improvements should facilitate the coordination of public and private improvements thereby eliminating duplication of effort and expense. The TIP development provides local officials and the general public the opportunity to identify, evaluate, and select short-range community transportation improvements.

The Rapid City Area TIP includes all identifiable transportation related improvement projects that may be undertaken in the planning area over the next four (4) years. Emphasis has been on area needs stated in RapidTRIP 2040, the Long Range Transportation Plan. The guiding principle used in developing the Rapid City Area TIP was that: "the document should be a comprehensive transportation planning and fiscal management tool designed to assist state and local officials in the task of matching needed transportation improvements with available resources to accomplish the community's transportation goals as efficiently and effectively as possible".

II. IDENTIFYING, EVALUATING AND SELECTING CANDIDATE PROJECTS

A. Project Selection And Prioritization

The 2019-2022 Rapid City Area Transportation Improvement Program (TIP) represents a prioritized program of transportation improvements in the following multi-modal areas: streets and highways, public transportation, bicycles, and pedestrian. Projects are prioritized within each program year by funding category. The Rapid City Area Transportation Improvement Program is developed cooperatively by the South Dakota Department of Transportation (SDDOT), the local participating units of government, agencies, and the committees of the Metropolitan Planning Organization (MPO). The development of the Rapid City Area Transportation Improvement Program is a result of a series of meetings between state and local transportation officials in which the transportation-related needs, concerns, and priorities of each participant are discussed and evaluated. Project-oriented solutions have been developed and initiated into the Rapid City Area Transportation Improvement Program by the governmental entity having jurisdiction.

State projects included within the TIP are also found in SDDOT's Statewide Transportation Improvement Program (STIP). The projects identified in the Statewide Transportation Improvement Program have been prioritized based on overall needs at the State level and the availability of funds for each the regions in South Dakota. The South Dakota Transportation Commission approves the Statewide Transportation Improvement Program after the Metropolitan Planning Organization Acts on the Transportation Improvement Program. Projects located within the cities are drawn from either the city's Capital Improvements Program (CIP), as in the case of Rapid City, or developed internally through other planning and budgeting processes. County projects are developed internally and funding sources are included in the annual provisional budget for the Highway Departments.

The improvement projects listed in the Transportation Improvement Program must conform to the Long Range Transportation Plan (LRTP) for the Rapid City Area Metropolitan Planning Organization. The most recent Long Range Transportation Plan was approved in September 2015. RapidTRIP 2040 the Long-Range Transportation Plan, can be found on the MPO website at http://rapidcityareampo.org/application/files/6115/0610/8044/RAPIDTRIP_2040.pdf and on the City of Rapid City website at <http://www.rcgov.org/departments/community-planning-development/transportation-planning.html>. Only major projects identified in the approved Long Range Transportation Plan are selected as potential TIP projects. Currently, projects within the TIP are considered to be in compliance with the LRTP.

Consistent with the project prioritization and evaluation criteria noted in the Long Range Transportation Plan, the TIP projects are prioritized in accordance with the policies and strategies that guide the Activities of the Rapid City Area Metropolitan Planning Organization process, including the Fixing America's Surface Transportation Act (FAST Act) Planning Factors. The Planning Factors found in the FAST Act include:

- Support the economic vitality of the metropolitan area by enabling global competitiveness, productivity, and efficiency;
- Increase the safety and security of the transportation system for motorized and non-motorized users;
- Increase the ability of the transportation system to support homeland security and safeguard the personal security of all motorized and non-motorized users;
- Increase the accessibility and mobility options available to people and freight;
- Protect and enhance the environment, promote energy conservation, and improve quality of life;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system;
- Improve resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

In terms of selecting a project for construction, the FAST Act provides additional flexibility within the period of the first four (4) years. Any projects identified within the initial four (4) year period may be accelerated or moved back based on current funds, needs or priorities. If a newly identified project is to be considered for placement in the TIP, then it must be presented to the transportation planning committees for approval. If approved, an amendment is then placed on the existing TIP to identify the new project. See Appendix A.

B. Financial Constraint

The FAST Act requires that Metropolitan Planning Organization (MPO) Transportation Improvement Program be financially constrained and include a financial plan which demonstrates that funding is available for programmed projects. The Rapid City Area Transportation Improvement Program has been developed to meet this requirement, and outlines the available funding in the respective project categories. The following funding sources have been identified for funding street projects.

1. **Assessments** – Cost recoveries levied against real property based upon the cost of improvements made by the city.

2. **Bond funds** – Funds derived from the issuance of general obligation or revenue bonds by the City. These bonds constitute an obligation of the City to repay principal and interest over a specified number of years from general or other revenues of the City.
3. **Enterprise Funds** – Cost recoveries from user fees or surcharges against real property based upon the cost of improvement by the City. These costs are charged within a specific enterprise fund (water, wastewater, landfill, etc.).
4. **Federal Funds** – Grants or loans from the federal government which are required to be used for specific purposes or projects.
5. **General Fund** – The fund used to account for all financial resources, except those required to be accounted for in another fund. The City's general fund accounts for revenues and expenditures of general property taxes, first penny sales tax, licenses and permits, etc.
6. **Other Funds** – Special revenue or trust funds that account for revenues restricted for specific purposes.
7. **State Funds** – Grants or loans from the State of South Dakota for specific purposes or projects.
8. **Sales Tax (2nd Penny)** – An additional one percent tax levied on gross receipts of retail business and service within the City's jurisdiction that may be used for specific purposes, primarily capital improvement projects and debt retirement.
9. **Tax Increment Financing** – Financing used to fund public investments in an area by capturing, for a time, all of the increased property tax revenue that results when public investment stimulates private investment.
10. **State Fuel Revenue Tax**
11. **Motor Vehicle Excise Tax**
12. **User Fees** – Fees charged for goods and services to recover the costs associated with providing those goods and services, including transit fares and bus advertising.

Figure 1 below depicts the project annual construction totals for the federally funded projects, and the entity responsible for paying the match. The South Dakota Department of Transportation has committed the State and Federal funds for the expenditures in Figure 1. State match is funded from the State Highway Trust Fund. The State Highway Trust fund generates most of its revenue from the state gas tax. City and County governments have committed funding for required local match.

The South Dakota Department of Transportation has dedicated Federal funding and will provide the match using State Fuel Tax Revenue and Motor Vehicle Excise Tax. The South Dakota Transportation Improvement Program for 2019-2022 is included on pages 11 – 22.

C. Performance Management Requirements

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) promote the use of an objectives-driven, performance-based approach to planning for operations as an effective way to integrate operations into planning and programming. This approach focuses on short- and long-term system performance rather than simply focusing on implementation of projects as a measure of success.

FHWA defines Transportation Performance Management as a strategic approach using system information to make investment and policy decisions to achieve national performance goals. It is systematically applied and a regular ongoing process; provides key information to help decision makers allowing them to understand the consequences of investment decisions across transportation assets or modes; improves communication between decision makers, stakeholders, and the traveling public; and ensures that performance targets and measures are developed through cooperative partnerships and based on data and objective information.

As a part of Moving Ahead for Progress in the 21st Century (MAP-21), and continued under the Fixing America's Surface Transportation (FAST) Act, states are to invest resources in projects that, collectively, will make progress toward achieving seven national goal areas that include:

- Safety
- Infrastructure Condition
- Congestion Reduction
- System Reliability
- Freight Movement and Economic Vitality
- Environmental Sustainability
- Reduced Project Delivery Delay

Safety Performance Management (PM1)

Safety was the first national performance goal area for which states and MPOs were required to set performance. The Safety Performance Measures Final Rule supports the Highway Safety Improvement Program (HSIP) as it establishes safety performance management requirements for the purpose of carrying out the HSIP and assesses fatalities and serious injuries on all public roads.

The Safety Performance Management Final Rule establishes five performance measures:

1. Number of Fatalities
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT)
3. Number of Serious Injuries
4. Rate of Serious Injuries per 100 million VMT
5. Number of Non-motorized Fatalities and Non-motorized Serious Injuries

Rather than setting its own safety targets, the Rapid City MPO has chosen to support the South Dakota DOT's safety targets as published in the South Dakota Highway Safety Improvement Program 2017 Annual Report. The MPO supports those targets by reviewing and programming all Highway Safety Improvement Program (HSIP) projects within the MPO boundary that are included in the DOT's Transportation Improvement Program. Any South Dakota DOT sponsored HSIP projects within the MPO area were selected based on safety performance measures and were approved by the South Dakota Transportation Commission.

The South Dakota DOT conferred with stakeholder groups, including the Rapid City MPO, as part of its target setting process. Working in partnership with local agencies, South Dakota DOT safety investments were identified and programmed which will construct effective countermeasures to reduce traffic fatalities and serious injuries. South Dakota DOT projects chosen for HSIP

investment are based on crash history, roadway characteristics, and the existence of infrastructure countermeasures that can address the types of crashes present. The South Dakota DOT continues to utilize a systemic safety improvement process rather than relying on “hot spot” safety improvements. The SDDOT and MPO conduct studies to identify safety issues on the roadway system and program projects to address those safety concerns. Many of the projects identified in the TIP will support the established safety targets. The safety targets are established every year and are located in the annual HSIP report which can be found on FHWA’s website: <https://safety.fhwa.dot.gov/hsip/reports/>

Pavement and Bridge Performance Measures (PM2)

The Federal Highway Administration (FHWA) published a final rule establishing performance measures for State Departments of Transportation (DOTs) to use in managing pavement and bridge performance on the National Highway System (NHS). State DOT targets should be determined from asset management analyses and procedures and reflect investment strategies that work toward achieving a state of good repair over the life cycle of assets at minimum practicable cost. State DOTs may establish additional measures and targets that reflect asset management objectives.

The Final Rule establishes the Pavement Performance Measures and the SDDOT targets as follows.

1. 62.6% of Interstate pavements in Good condition
2. 2.4% of Interstate pavements in Poor condition
3. 41.5% of non-Interstate NHS pavements in Good condition
4. 1.5% of non-Interstate NHS pavements in Poor condition

The Final Rule also establishes the Bridge Performance Measures and the SDDOT targets as:

1. >20% of NHS bridges by deck area classified as in Good condition
2. <5% of NHS bridges by deck area classified as in Poor condition

Rather than setting its own pavement and bridge performance targets, the Rapid City MPO has chosen to support the South Dakota DOT’s pavement and bridge targets and will coordinate with the South Dakota DOT in the development of pavement and bridge targets. The SDDOT uses a pavement management system and bridge management system to prioritize projects. This is not a worst/first methodology but a management system utilizing a benefit/cost methodology to program projects to maximize funding. Reconstruction, PCC paving and AC paving projects programmed in the TIP improve the condition of the pavements. Bridge reconstruction, deck overlays, epoxy chip seals and deck replacement projects programmed in the TIP improve the condition of the bridge deck area.

System Performance (PM3)

A final rule establishes performance measures that report on the performance of the Interstate and non-Interstate National Highway System (NHS) to carry out the National Highway Performance Program (NHPP); and freight movement on the Interstate system to carry out the National Highway Freight Program (NHFP).

The Final Rule establishes the performance measures and the SDDOT targets as follows

1. Percent of reliable person-miles traveled on the Interstate: State Target: 90%
2. Percent of reliable person-miles traveled on the non-Interstate NHS: State Target: 85%
3. Percentage of Interstate system mileage providing for reliable truck travel time – Truck Travel Time Reliability Index: State Target: <1.5%

Rather than setting its system performance targets, the Rapid City MPO has chosen to support the South Dakota DOT's system performance and will coordinate with the South Dakota DOT in the development of system performance targets. . SDDOT utilized the National Performance Management Research Data Set (NPMRDS) to analyze congestion in the state. At locations where congestion occurs, projects are programmed to mitigate the congestion. The majority of South Dakota's congestion is intersection or event related. Intersection improvements are programmed to mitigate intersection congestion and the SDDOT and MPO conducts studies to identify and program projects where other congestion occurs and programs projects to mitigate congestion at the identified locations. SDDOT and the MPO will continue to monitor traffic travel times and program mitigation projects.

The South Dakota Department of Transportation will provide the match for State sponsored federally funded projects using State Fuel Tax Revenue and Motor Vehicle Excise Tax. The South Dakota Transportation Improvement Program for 2019-2022 is included on pages 15 - 27.

All projects sponsored by the City of Rapid City are excerpts from the City’s Capital Improvement Program (CIP). The CIP is a five-year plan for construction and infrastructure improvements. The five-year plan is revised and updated annually. The CIP Committee reviews the proposed projects and formulates the five-year plan based on available funding and priority. The plan is then presented to the Mayor, Planning Commission and City Council for approval. Projects programmed for the upcoming year (2019) will be adopted as a part of the City budget. Projects scheduled for subsequent years (2020-2023) are tentatively programmed for implementation in those respective years. All projects beyond the current year are subject to annual review. Local funding will be provided by developer contributions, tax increment financing and other local sources. Adequate funds have been committed to fund the City’s local match for transportation projects. The City of Rapid City’s Capital Improvements Projects are found on pages 29 - 32.

Rapid City Public Transit receives funding from the Federal Transit Administration, the South Dakota Department of Transportation and the City of Rapid City. The breakdown of these funds and the Transit Program for 2019-2022 is included on page 33. Rapid City Public Transit also receives funds to assist with programming expenditures from fare box and bus advertising revenues.

Rapid City Regional Airport receives funding from the Federal Aviation Administration, the State of South Dakota, and the Airport Enterprise Fund. The Airport Improvement Projects for 2019-2021 are listed on page 34.

The City of Box Elder presently receives funding from the City’s general fund and The State of South Dakota. The City of Box Elder Five-Year Construction Program for 2019-2023 is included on pages 35-36.

Meade County presently receives funding from the County’s general fund. The Meade County Five-Year Construction Program for 2019-2023 is included on pages 37-38.

Pennington County presently receives funding from the County’s general fund. Pennington County has committed funds to those County Secondary and Off System Projects (SDDOT) listed within this TIP. The Pennington County Five-Year Construction Program for 2019-2023 is included on page 39.

FAST Act directs MPOs to consider operation and maintenance (O&M) of the system as part of fiscal constraint, in addition to capital projects. O&M costs represent what is required to operate and maintain existing transportation facilities. To support this assessment, MPOs are charged with providing credible cost estimates in the TIP. The table below was developed in consultation with SDDOT and the local governments. The total O&M costs for the MPO area are greater than \$23 million per year. The O&M costs are included in each entity’s budget and are fiscally constrained.

Figure 4 – Projected Operations and Maintenance Costs in the Metropolitan Planning Area

Entity	2019	2020	2021	2022	Total
SDDOT	\$2,100,000	\$2,100,000	\$2,100,000	\$2,100,000	\$8,400,000
Box Elder	\$950,000	\$950,000	\$950,000	\$950,000	\$3,800,000
Rapid City	\$6,119,587	\$6,119,587	\$6,119,587	\$6,119,587	\$24,478,348
Summerset	\$75,000	\$75,000	\$75,000	\$75,000	\$300,000
Meade County	\$5,086,366	\$5,086,366	\$5,086,366	\$5,086,366	\$20,345,464
Pennington County	\$8,673,603	\$8,673,603	\$8,673,603	\$8,673,603	\$34,694,412
Total Projected O&M Costs	\$23,004,556	\$23,004,556	\$23,004,556	\$23,004,556	\$92,018,224

III. STATUS OF PREVIOUSLY PROGRAMMED TRANSPORTATION IMPROVEMENTS

Item	Project Number	PC#	County	Length	Route	Location of Project	Type of Improvement	Status

IV. RECOMMENDED PROJECTS AND PROGRAMS

A listing of projects, programs, and funding sources during Fiscal Years 2018 – 2022 follows. The projects are listed in order of priority as designated by private citizens, the Citizen's Advisory Committee, the Technical Coordinating Committee, the Executive Policy Committee, Planning Staff, and the South Dakota Department of Transportation (SDDOT). The recommended projects and programs have been grouped into "System or Functional Element" categories.

APPENDIX A

Rapid City Area Metropolitan Planning Organization Guidelines for Non-Transit Administrative Amendments and Revisions to The Rapid City MPO Transportation Improvement Program (TIP)

Revising an Approved TIP:

The TIP may be revised at any time. A formal TIP revision will be required for any new projects added during the course of the year, project limit changes, change in type of work, etc. Projects within the Metropolitan Planning Organizations (MPO) established Metropolitan Planning Area Boundaries require both a TIP and STIP revision. A TIP revision is any change to the project listings, and/or funding tables in an existing TIP. Revisions require federal approval. A major STIP/TIP revision will require additional public involvement prior to FHWA approval. The MPO's public involvement process will be sufficient for metropolitan area TIP revisions. SDDOT will e-mail a STIP/TIP revision to FHWA requesting approval of the addition or change made and stating the source of funding to maintain a balanced STIP/TIP. Cost changes made to the second, third and fourth year of the TIP will be balanced during the TIP update process.

A revision to the TIP is:

- a. Adding a new project or phase(s) to the TIP, not programmed in the previously approved TIP
- b. Increasing the Federal Funds by more than 100% of the total project cost (minimum of \$250,000 change).
- c. Increasing the total cost of a project the greater of \$3.0 million or 10%.
- d. A change in funding source from 100% non-federal funds to partial or fully-funded with Federal funds.
- e. A change in funding sources across modes for existing projects in the TIP (the funding for a project change from FHWA to FTA or vice versa).
- f. A major change in the project scope or improvement type that changes the intent of the project.

Administrative Amendments to an Approved TIP:

An administrative amendment to the TIP does not require public involvement or FHWA approval. The TIP administrative amendment process consists of notification to all involved parties of the latest changes to the TIP. SDDOT Project Development staff will notify the FHWA by e-mail showing the change made.

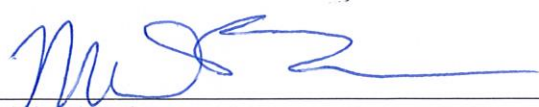

An Administrative Amendment to the TIP is:

- a. Shifting funds within TIP project categories or Federal funding categories without a change in total program TIP funding amounts.
- b. Increases in the Federal funds less than \$250,000 and cost increases less than 100% of the total project cost.
- c. Increasing the total cost of any project with federal funding that doesn't exceed the greater of \$3.0 million or 10%.
- d. Obvious data entry errors.
- e. Splitting or combining projects already in the program that result in no change in overall project schedule or funding.
- f. Changes or clarifying elements of a project location or improvement description that does not change the funding or alter the original project intent.
- g. Movement of a project or phase thereof within the first four years of the approved TIP.
- h. A change in funding source from partial or fully-funded with Federal funds to 100% non-federal funds.
- i. Cost increases for 100% state or local funded projects do not require an amendment, regardless of the State/local source.

Modification of existing STIP/TIP projects in order to make STIP/TIP documents match provided the modification involves minor changes in the scope or funding of a project as provided by this section.

Approved by: 
 Vice Chairman
 Executive Policy Committee
 Rapid City Metropolitan Planning Organization

Date: 4/12/18

Approved by: 
 Michael Behm
 Division of Planning and Engineering
 South Dakota Department of Transportation

Date: 4/23/18

Appendix B
Metropolitan Transportation Planning Self-Certification
For the Rapid City Area Metropolitan Planning Organization (RCAMPO)
Fiscal Year 2019-2022

The following is to demonstrate and resolve that the Rapid City Area Metropolitan Planning Organization's transportation planning process meets all applicable requirements of Self Certification Process (23 CFR 450.334).

1. Metropolitan Planning Organization (MPO) (*Ref: 23 USC 134(b) and 23 CFR 450.306*)

Describe the Entity Designated as the MPO

The Rapid City Area Metropolitan Planning Organization is an association of local and state governments made up the City of Rapid City, the City of Box Elder, Pennington County and Meade County. The South Dakota Department of Transportation (SDDOT), Ellsworth Air Force Base, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA) and the local school districts also participate. The hosting agency that provides staff and all administrative support to the Metropolitan Planning Organization is the City of Rapid City.

2. Geographic Scope (*Ref: 23 USC 134(c) and 23 CFR 450.308*)

Describe the Physical Boundaries/Provide a Map

The Rapid City Urbanized Area includes the lands within the City of Rapid City urban growth boundary and the densely populated adjoining areas of Pennington and Meade Counties. The area is shown in the attached map.

3. Agreements (*Ref: 23 USC 134(d) and 23 CFR 450.310*)

A. Agreements in force among the participating agencies relative to the transportation planning process include:

1. Intergovernmental Agreement for the Purpose of Establishing the Rapid City Area Metropolitan Planning Organization and Specifying MPO Cooperation with the State Department of Transportation signed in December 2007 by the South Dakota Department of Transportation and the parties in the Rapid City Area Metropolitan Planning Organization;
2. Operations Plan was adopted in December 2016. The Operations Plan outlines the procedures and requirements for adopting transportation products and plans for the Metropolitan Planning Organization.

B. Agreements between the State and the MPO include:

1. Annual FHWA and FTA planning funds agreement between SDDOT and City of Rapid City acting as the Rapid City Area Metropolitan Planning Organization;

C. Agreements between the MPO and other entities include:

1. Intergovernmental/Interagency Agreement between the Rapid City Area Metropolitan Planning Organization and the City of Box Elder.
2. Intergovernmental/Interagency Agreement between the Rapid City Area Metropolitan Planning Organization and Meade County.

4. Responsibilities, Cooperation and Coordination (Ref: 23 CFR 450.312)

A. Cooperative Metropolitan Planning Process

The Rapid City Area Metropolitan Planning Organization member entities, including SDDOT, collaborate in carrying out the requirements of the Metropolitan Transportation Planning Process. The Rapid Transit system is owned by the City of Rapid City, a member of the Rapid City Area Metropolitan Planning Organization. This cooperative process includes city and state participation in the decision-making processes of the Rapid City Area Metropolitan Planning Organization Executive Policy Board, Technical Coordinating Committee (TCC), and the Citizen Advisory Committee (CAC). Rapid Transit is represented on the TCC. SDDOT, FHWA and FTA designate staff to serve on the TCC.

The metropolitan transportation planning process includes:

1. Development and maintenance of a Long Range Transportation Plan (RapidTRIP2040 adopted September 2015)
2. Development and maintenance of a Transportation Improvement Program (TIP)
3. Review of specific transportation and development proposals for consistency with RapidTRIP2040
4. Coordination of transportation decisions among local jurisdictions and state agencies
5. Development of an annual work program

B. Agreed Responsibilities for Development of UPWP, Long Range Transportation Plan, and Transportation Improvement Program

1. Rapid City staff currently provides Travel Demand Modeling Services for all Rapid City Area Metropolitan Planning Organization related work.
2. The Rapid City Area Metropolitan Planning Organization leads development and maintenance of the Unified Planning Work Program, RapidTRIP2040, and Transportation Improvement Program. This work is coordinated with all of the Rapid City Area Metropolitan Planning Organization agencies.

5. Metropolitan Transportation Planning Products

A. Unified Planning Work Program (Ref: 23 CFR 450.314)

The purpose of the Unified Planning Work Program is to describe the annual activities, planning studies, and products to be developed by the Metropolitan Planning Organization over a year time. The Unified Planning Work Program identifies who will be involved with the work tasks and the anticipated product or outcome. The Unified Planning Work Program also identifies funding for these tasks which includes total programmed expenditures for each one. The Metropolitan Planning Organization and its coordinating agencies work together to define work activities which will be performed over the year. The City of Rapid City oversees this work program in accordance with the agreements among the City of Rapid City, the City of Box Elder, Pennington County and Meade County. The South Dakota Department of Transportation (SDDOT), Ellsworth Air Force Base, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA) and the local school districts also participate in the development of the Unified Planning Work Program as members of the Technical Coordinating Committee.

The tasks in the FY2018 UPWP for the Rapid City Area Metropolitan Planning Organization were developed with input from local entities to ensure all transportation issues within the Rapid City Metropolitan Planning Organization's boundaries were considered.

B. Long Range Transportation Plan (Ref: 23 USC 134(g) and 23 CFR 450.322)

The federally compliant RapidTRIP2040 Long Range Transportation Plan was adopted in September 2015.

C. Transportation Improvement Program (TIP) (Ref: 23 USC 134(h) and 23CFR 450.23 & 26)

The Rapid City Area Metropolitan Planning Organization develops the Transportation Improvement Program in cooperation and coordination with all of the members of the Rapid City Area Metropolitan Planning Organization. The Rapid City Area Metropolitan Planning Organization will coordinate its prioritization process and its list of transportation project priorities with SDDOT.

6. Planning Emphasis Areas

The Rapid City Area Metropolitan Planning Organization planning process addresses the FHWA/FTA planning emphasis areas in all projects and policies. The following is a description of these considerations, and a brief explanation of how the factors will be addressed.

A. *Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency*

It is among the goals of the Rapid City Area Metropolitan Planning Organization's transportation planning activities to support the economic vitality of the Rapid City Urbanized Area and beyond. The Rapid City Urbanized Area is the economic hub of the Black Hills region. Rapid City Area Metropolitan Planning Organization's transportation planning activities are to facilitate the movement of people and goods which is the key in promoting economic activities.

B. *Increase the safety of the transportation system for motorized and non-motorized users*

The safety of the transportation system was among the criteria used by the Rapid City Area Metropolitan Planning Organization in prioritizing transportation projects for funding. The Rapid City Area Metropolitan Planning Organization prepares an annual Pedestrian/Bicycle Crash Report to identify high crash areas for pedestrians and bicyclist. The Rapid City Area Metropolitan Planning Organization also developed an Arterial Street Safety Study, which included a review of street segment crash statistics, identification of street segments exceeding the statistical critical rate, and recommendations to reduce crashes based on analysis of crash types. Some of the recommendations have been implemented since the completion of the study.

C. *Increase the security of the transportation system for motorized and non-motorized users*

The security of the transportation system was among the criteria used by the Rapid City Area Metropolitan Planning Organization in prioritizing transportation projects for funding.

- D. Increase the accessibility and mobility options available to people and for freight**
It is among the goals of the Rapid City Area Metropolitan Planning Organization's transportation planning activities to increase the accessibility and mobility options of people and freight in the Rapid City Urbanized Area. The Rapid City Area Metropolitan Planning Organization will continue working with local mobility advocacy groups, the cities, and counties to identify opportunities for increasing the accessibility and mobility options of all people in the Rapid City Urbanized Area. Rapid City Area Metropolitan Planning Organization staff has in the Coordinated Human Services Public Transportation Plans.
- E. Protect and enhance the environment, promote energy conservation, and improve quality of life**
The Rapid City Area Metropolitan Planning Organization transportation planning activities include full consideration of environmental issues.
- F. Enhance the integration and connectivity of the transportation system, across and between modes for people and freight**
The Rapid City Area Metropolitan Planning Organization transportation planning process is comprehensive and includes all modes of transportation and the mobility needs of all people. Multi-modal and intermodal transportation planning will help provide connectivity across all modes and for all users of the system.
- G. Promote efficient system management and operations**
The Rapid City Metropolitan Planning Organization approved the ITS Master Plan for Integration Strategies in November 2003. The Rapid City Area Metropolitan Planning Organization will continue to use ITS measures as a means of enhancing the efficiency of existing transportation system and operations.
- The Metropolitan Plan promotes a multi-modal transportation system. This approach will help to maximize transportation efficiency by providing multiple travel options. The ultimate goal will be to reduce the demand on the highway system, which will increase roadway capacity and reduce maintenance costs.
- H. Emphasize the preservation of the existing transportation system**
Preservation of the existing transportation system is a priority in the Long Range Transportation Plan. Preservation of the existing system was a key consideration while identify future revenues. The estimated costs of preservation were taken "off the top" of the overall funding forecasts. The remaining funds were then allocated to capacity improvements and other non-preservation projects. The Long Range Transportation Plan devotes a large portion of available funds to the maintenance and preservation of existing transportation system.
- I. Coordinate with State DOT consultation efforts with non-metropolitan local officials**
The adopted Rapid City Area Metropolitan Planning Organization Unified Planning Work Program contains tasks to coordinate transportation issues and activities with SDDOT.
- J. Enhance the technical capability of the transportation planning processes**
The Rapid City Area Metropolitan Planning Organization programs funds in the Unified Planning Work Program and Transportation Improvement Program to upgrade the travel

demand model, update the underlying travel data by participating in joint surveys, and provide training opportunities for staff.

K. *Linking the NEPA and planning processes*

The RapidTRIP 2040 Long Range Transportation Plan includes environmental considerations that identify known historical, cultural, archeological, and natural resources. This amendment also identifies potential mitigation activities. The data in this amendment will help improve the project development process and hopefully speed project delivery.

L. *Coordination and provision of Human Service and Transportation Disadvantaged Services (ADA, Elderly, and Disabled)*

Metropolitan Planning Organization staff and local transit service providers began working in 2007 to develop a coordinated human services transportation plan. A plan was completed in October 2007, updated in 2013, and is currently being updated for 2018. The goal of this project was to develop and implement a public transportation plan for the Rapid City Urbanized Area with a particular focus on providing access to critical services for lower income residents, seniors, and other special needs populations. The Rapid City Area Metropolitan Planning Organization has been involved in that effort to ensure the continued availability of federal transportation funds.

7. *Public Involvement (Ref: 23 CFR 450.316(b))*

Rapid City Area Metropolitan Planning Organization Public Participation Plan

The Rapid City Area Metropolitan Planning Organization adopted a MAP-21 compliant public participation plan in November 2016. This plan serves as the statement of transportation public participation policies adopted by the Rapid City Area Metropolitan Planning Organization. Participation of the public in transportation planning activities is vitally important to the Rapid City Area Metropolitan Planning Organization. The emphasis of the adopted policies in this report is on regional system planning products regularly produced in the transportation planning process. Various techniques will selectively be used to provide information and solicit public comment. Some examples of public participation activities are briefly described below.

- A. Newspaper Advertisements
- B. Web Site
- C. Articles
- D. Press Releases
- E. Flyers
- F. TV/Radio
- G. Public Service Announcements
- H. Interviews
- I. Community Forums
- J. Public Meetings
- K. Public Hearings
- L. Group Presentations
- M. Advisory Committee

8. *Title VI (Ref: Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21)*

Title VI of the Civil Rights Act of 1964 states that “no person in the United States shall, on the grounds of race, color or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal

financial assistance” [42 USC 2000d]. Executive Order 12898, Federal Actions to Address Environmental Justice in Minority and Low-Income Populations, was signed by President Clinton on Feb. 11, 1994 and published in the Feb. 16, 1994 Federal Register, Vol. 59, No. 32. The Executive Order and accompanying memorandum reinforced the requirements of Title VI of the Civil Rights Act of 1964 that focus federal attention on the environmental and human health condition in minority and low-income communities. Together these two laws promote non-discrimination in federal programs affecting human health and the environment, and provide minority and low income communities access to public information and an opportunity to participate in matters relating to transportation and the environment.

Through the regional planning process, the Metropolitan Planning Organization and partner agencies will thoroughly analyze the three fundamental environmental justice principles. The principles are:

- To avoid, minimize or mitigate disproportionately high and adverse human health or environmental effects, including social and economic effects of programs, policies and activities on minority populations and low-income populations;
- To ensure full and fair participation by all potentially affected communities in the transportation decision-making process; and
- To prevent the denial of, reduction of, or significant delay in the receipt of transportation benefits by minority and low-income populations.

The Metropolitan Planning Organization staff developed a Title VI Policy that was adopted in 2012 to ensure compliance with the Civil Rights Act of 1964 and to provide the public with procedures to request assistance in addressing any issues that may surface. Additionally, the Metropolitan Planning Organization’s public participation plan addresses the full and fair participation of all populations.

9. Disadvantage Business Enterprise (DBE) (*Ref: Section 1101(b) of Pub. L. 109-59, 49 CFR part 26*)

The Rapid City Area Metropolitan Planning Organization shows a good faith effort to solicit Disadvantage Business Enterprises (DBEs) when procuring assistance from private contractors. The Rapid City Area Metropolitan Planning Organization awards an additional five points out of 100 points to private contractors who are DBEs or have a DBE subcontractor. It is the policy of Rapid City Area Metropolitan Planning Organization to ensure no discrimination on the basis of race, color, creed, national origin, sex, or age in any employment or business opportunity.

10. Americans with Disabilities Act (ADA) (*Ref: Americans with Disabilities Act of 1990, Pub. L. 101-366, 104 Stat. 327, as amended, and 49 CFR 27, 37, and 38*)

The Americans with Disabilities Act of 1990 (ADA) requires involving persons with disabilities in the development and improvement of transportation services. Planners, engineers, and builders must provide access for the disabled at sidewalks and ramps, street crossings, and in parking or transit access facilities. Persons with disabilities must also be able to access the sites where public participation activities occur as well as the information presented. The Metropolitan Planning Organization’s public participation plan addresses the Americans with Disabilities Act.

Rapid City Area Metropolitan Planning Organization public meetings are held in places accessible to people with disabilities. The Rapid City Area Metropolitan Planning Organization office is located in an accessible building.

- 11. Air Quality** (*Ref: 40 CFR 51; OAR 340-2-710 through 340-20-1080*)
- A. Regional Air Quality Status of the Rapid City Area Metropolitan Planning Organization Area
The Rapid City Urbanized Area is not in violation of EPA's National Ambient Air Quality Standards (NAAQS). The area, therefore, is not designated nonattainment for any of the Air Quality Criteria Pollutants.
- B. Describe Conformity Status of the Rapid City Area Metropolitan Planning Organization Plan and TIP
According to the Clean Air Act Amendments (CAAA) of 1990, the Rapid City Urbanized Area is not required to demonstrate Air Quality Conformity of its transportation plans, programs and projects to the State Implementation Plan.
- 12. Lobbying Prohibition** (*Ref. 49 CFR 20*)
The funding agreement and all contracts with the Rapid City Area Metropolitan Planning Organization include language regarding breach of any federal statutes, rules, program requirements and grant provisions applicable to the federal funds. Through approval of that agreement, the Rapid City Area Metropolitan Planning Organization agrees to follow all applicable rules.
- 13. Employment & Business Opportunity Discrimination** (*Ref. 49 USC 5332*)
The federal code states: A person may not be excluded from participating in, denied a benefit of, or discriminated against under, a project, program, or activity receiving financial assistance under this chapter because of race, color, creed, national origin, sex, or age.
- It is the policy of Rapid City Area Metropolitan Planning Organization to ensure no discrimination on the basis of race, color, creed, national origin, sex, or age in any employment or business opportunity.
- 14. Equal Employment Opportunity - Federal Aid Construction Projects** (*Ref. 23 CFR part 230*)
This requirement is not applicable to the Rapid City Area Metropolitan Planning Organization. The Rapid City Area Metropolitan Planning Organization is a planning organization and does not construct projects.
- 15. Older Americans Act** (*Ref. 42 USC 6101*)
The federal code states: It is the purpose of this chapter to prohibit discrimination on the basis of age in programs or activities receiving Federal financial assistance.
- It is the policy of Rapid City Area Metropolitan Planning Organization to ensure no discrimination on the basis of age. The Metropolitan Planning Organization's public participation plan addresses the full and fair participation of all populations.
- 16. Gender Discrimination** (*Ref. Section 324 of title 23 USC*)
The federal code states: No person shall on the ground of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal assistance under this title or carried on under this title.
- It is the policy of Rapid City Area Metropolitan Planning Organization to ensure no discrimination on the basis of sex. The Metropolitan Planning Organization's public participation plan addresses the full and fair participation of all populations.

17. Discrimination Against Individuals with Disabilities *(Ref. 29 USC 794 and 49 CFR part 27)*

The federal code states: No otherwise qualified individual with a disability in the United States, as defined in section 705 (20) of this title, shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance or under any program or activity conducted by any Executive agency or by the United States Postal Service.

It is the policy of Rapid City Area Metropolitan Planning Organization to ensure no discrimination occurs on the basis of disability. The Metropolitan Planning Organization's public participation plan addresses the full and fair participation of all populations.

SOUTH DAKOTA DEPARTMENT OF ENVIRONMENT & NATURAL RESOURCES

Dear Mr. Mayer:

The Rapid City Area Metropolitan Planning Organization (MPO) is comprised of the City of Rapid City, the City of Box Elder, the City of Piedmont, the City of Summerset, portions of Pennington County and portions of Meade County. By law, all urbanized areas with a population of 50,000 or greater are required to have a Metropolitan Planning Organization that is responsible for area transportation planning and programming activities.

The Rapid City Area Metropolitan Planning Organization is currently updating its Transportation Improvements Program (TIP) for the years 2019-2022. The TIP is a five year plan for proposed capital and operation expenditures for public transportation, including potential funding sources, for the Rapid City Metropolitan Area. I have enclosed a draft of the 2019-2022 TIP for the Rapid City Metropolitan Area for your review and comment. An electronic version can be viewed at:

http://www.rapidcityareampo.org/application/files/5115/2832/3426/18TP021_2019-2022_Rapid_City_Area_Transportation_Improvement_Program-Draft_Report.pdf

Please respond within 30 days with any comments or questions. Thank you for your time and consideration of this matter.

Sincerely,

Kip Harrington, Planner III

Re: The Rapid City Area Metropolitan Planning Organization (MPO) Transportation
Improvement Program (TIP) 2019 – 2022, Pennington and Meade Counties, South Dakota

Dear Mr. Harrington:

The South Dakota Department of Environment and Natural Resources' Ground Water Quality program has reviewed the above-referenced TIP plan update. Based on the information submitted in your letter dated June 13, 2018, the department has no specific groundwater concerns at this time. However, the department will comment on specific projects later when notification is received confirming the status of individual projects, or at a time when more details become available.

If you would like to do an initial review of one possible environmental concern, please note that there have been numerous petroleum and other chemical releases throughout the state. There have been a significant number of releases have occurred in the Rapid City region over time, and residual contamination from some releases may be encountered during the proposed construction projects. You can obtain more data regarding releases reported in South Dakota at the following website: <http://arcgis.sd.gov/server/denr/spillviewer/>.

If construction activities for these projects disturb one or more acre(s) of soil, a storm water permit may be required. For more information or to obtain a storm water permit, please contact the Department at 1-800-SD-Storm or visit:
<http://denr.sd.gov/des/sw/StormWaterandConstruction.aspx>.

RECEIVED

JUN 26 2018

RAPID CITY DEPARTMENT OF
COMMUNITY DEVELOPMENT

If contamination is encountered during construction activities or caused by the construction work, the Rapid City Area MPO or its designated representative must report the contamination to the department at (605) 773-3296. Any contaminated soil encountered or caused by the construction must be temporarily stockpiled and sampled to determine disposal requirements, and the construction materials used in the contaminated area should be evaluated for chemical compatibility and adjusted accordingly.

Thank you for the Metropolitan Planning Organization's efforts to protect South Dakota's environment.

If you have any questions regarding this letter, please contact me at (605) 773-3296 or georgina.smith@state.sd.us.

Sincerely,

Georgina Smith

CORPS OF ENGINEERS, OMAHA DISTRICT
1616 CAPITOL AVENUE
OMAHA NE 68102-4901

June 25, 2018

Planning, Programs, and Project Management Division

Mr. Kip Harrington
City of Rapid City
Community Planning & Development Services
300 Sixth Street
Rapid City, South Dakota 57701-5035

Dear Mr. Harrington:

The U.S. Army Corps of Engineers, Omaha District (Corps) has reviewed your letter dated June 13, 2018 (received June 18, 2018) regarding the environmental review of the Transportation Improvements Program (TIP) proposed by the Rapid City Area Metropolitan Planning Organization in Pennington and Meade Counties, South Dakota. It is understood that the proposed TIP is planned for 2019-2022 and may include interstate maintenance, state highway urban improvements, bridge rehabilitation and replacement, railroad crossing improvements, pavement preservation projects, transportation alternatives, and Americans with Disabilities Act (ADA) projects. We offer the following comments for your consideration:

Your plans should be coordinated with the state water quality office that has jurisdiction within the area where the project is located to ensure compliance with federal and state water quality standards and regulations mandated by the Clean Water Act and administered by the U.S. Environmental Protection Agency. Please coordinate with the South Dakota Department of Environment & Natural Resources concerning state water quality programs.

If you have not already done so, it is recommended you consult with the U.S. Fish and Wildlife Service and the South Dakota Department of Game, Fish and Parks regarding fish and wildlife resources. In addition, the South Dakota State Historic Preservation Office should be contacted for information and recommendations on potential cultural resources in the project area.

It should be ensured that the proposed project is in compliance with floodplain management criteria of Pennington and Meade Counties and the State of South Dakota. The design should ensure that the one percent annual chance floodwater surface elevation of any stream affected that has a designated floodway, is not increased relative to pre-project conditions. If a designated floodway has not been identified then the design should ensure that the one percent annual chance floodwater surface elevation is not increased by more than one-foot relative to pre-project conditions. It is desirable, however, that water surface elevations either remain the same or decrease as a result of this project.

Since the proposed project does not appear to be located within Corps owned or operated lands, your plans should be submitted to the local floodplain administrator for

review and approval prior to construction. It should be ensured that the proposed project is in compliance with the floodplain management criteria of Pennington and Meade Counties and the State of South Dakota. In addition, please coordinate with the following floodplain management office:

South Dakota Division of Emergency Management
Attention: Mr. Marc Macy
118 W. Capitol Avenue
Pierre, South Dakota 57501
Telephone: 605-773-3231
Fax: 605-773-3580
Email: marc.macy@state.sd.us

Any proposed placement of dredged or fill material into waters of the United States (including jurisdictional wetlands) requires Department of the Army authorization under Section 404 of the Clean Water Act. You can visit the Omaha District's Regulatory website for permit applications and related information. Please review the information on the provided website (<http://www.nwo.usace.army.mil/Missions/RegulatoryProgram.aspx>) to determine if this project requires a 404 permit. For a detailed review of the permit requirements, preliminary and final project plans should be sent to:

U.S. Army Corps of Engineers
Pierre Regulatory Office

RE: Review of the Rapid City Area Metropolitan Transportation Improvement Program

Dear Mr. Harrington:

The review of the Rapid City Area Transportation Improvement Program (TIP) for 2019 to 2022 has been completed by the Air Quality Program. No special transportation conformity planning is required in the TIP because the area is attaining the National Ambient Air Quality Standards. The Department finds the Rapid City Area TIP as supplied in compliance with the South Dakota Air Quality State Implementation Plan.

Transportation planning is an important tool in maintaining good air quality levels in the state. It is the intent of the South Dakota Department of Environment and Natural Resources to maintain air monitoring sites in the City of Rapid City. The sites will evaluate air pollution trends and control measures so this area continues to attain the National Ambient Air Quality Standards.

If you have questions or require further information please contact me. Thank you for supplying the information to the Air Quality Program for review.

Sincerely,

Rick Boddicker
